

# DV Mattebox fitchart

- 1.** DV mattebox MB-200. Item #0200-0200.  
Mattebox with 105 mm attachment, one rotating and one fixed 4"x4" filter frame and two patented "eyebrows". Included is a free DV French flag. Item #0250-0020.
- 2.** DV mattebox MB-250. Item #0200-0250.  
Mattebox with 105 mm attachment, wide angle hood, one rotating and one fixed 4"x4" filter frame and one French flag.
- 3.** French flag. Item #0250-0020.  
In some extreme situations this flag is necessary to prevent lens flare. This flag comes in kit form, complete with friction hinge, and attaches to the mattebox via the accessory shoe. Only for the MB-200 compact mattebox Item #0200-0200.
- 4.** Bars adapter DVMB MKII. Item #0250-0150.  
This adapter allows the matteboxes to be used on a rails support. Fits on supports with both 15 mm and 12 mm rails.
- 5.** 12 mm rail support. Item #0350-0007.  
Ultra lightweight and compact rail support for mini DV camera's.
- 6.** 12mm Extension Rods (2pc.). Item #0250-0040.  
On some camera's with long lenses the standard 12 mm rails are to short, and can be extended for 45 mm with these extenders.
- 7a, b, f, g, h.** MBS-100, 15 mm lightweight support.  
For superior camera protection, optimal compatibility with Arri and other manufacturer's accessories such as follow focus.  
Type "A" Item #0350-0001. Required for Sony DSR-250/300/500 and JVC GYDV550/700.  
Type "B" Item #0350-0003. Required for JVC GYDV500.  
Type "F" Item #0350-0008. Required for Canon XL-1(S) and XL-2.  
Type "G4" Item #0350-0012. Required for Sony HVR-Z1E / HDR-FX1 / HVR-V1E / HDR-FX7 / PD-150 / PD-170 / Panasonic DVX-100(A) / HVX-200 / Canon XH-A1 / XH-G1. With integrated shoulder bracket.  
Type "H" Item #0350-0010. Required for JVC GY-HD100.
- 9.** Tripod spacer. Item #0250-0030.  
If a mattebox is attached to the camera with the 12 mm, or some 15 mm supports, it is impossible to attach the camera to some tripods (i.e. some Manfrotto and Vinten tripods). For these tripods we have developed a "Tripod Spacer". This spacer raises the camera allowing it to attach to the tripod.
- 10.** Flexible adapter ring kit. Item #0320-0010.  
Required if a mattebox is used on a rail support to fill the gap between the rear of the mattebox and the lens front. Six pieces of exchangeable various diameter soft rubber rings are included.
- 11.** Rigid (step-down) adapterring. 105 mm to 95 mm, for cylindrical lens fronts. Item #0250-0110.
- 12.** Rigid (step-down) adapterring. 105 mm to 80 mm, for cylindrical lens fronts. Item #0250-0120.
- 13.** Rigid (step-down) adapterring. 105 mm to M72, for inside threaded lens fronts. Item #0250-0140.
- 14.** Rigid (step-down) adapterring. 105 mm to M58, for inside threaded lens fronts. Item #0250-0130.
- 15.** Rigid (step-down) adapterring. 105 mm to 93 mm, for cylindrical lens fronts. Item #0250-0141.
- 16.** Rigid (step-down) adapterring. 105 mm to 97 mm, for cylindrical lens fronts. Item #0250-0142.
- 17.** Filter frame 4"x4" Aluminum MKII. With shortened handgrip. Item #0310-0011.
- 18.** Rigid (step-down) adapterring. 105 mm to M82, for inside threaded lens fronts. Item #0250-0143.
- 19.** Rigid (step-down) adapterring. 105 mm to M37, for inside threaded lens fronts. Item #0250-0125.
- 20.** Rigid (step-down) adapterring. 105 mm to M62, for inside threaded lens fronts. Item #0250-0135.
- 21.** Rigid (step-down) adapterring. 105 mm to M62, for inside threaded lens fronts. Item #0250-0135.

Care should be taken when using a clip-on mattebox to avoid damage to your equipment. We do not recommend the use of a clip-on mattebox in conjunction with a wide angle converter. Vocas is not responsible for any damage caused to your equipment through the use of a clip-on mattebox.
