Handgrip combi rail bracket for 19 mm, 15 mm studio and 15 mm LW rails: **0390-0006**

Handgrip 15 mm rail bracket: **0390-0110**

Leather handgrip short: **0390-0004**

Leather handgrip long: **0390-0005**

Adjustable handgrip extender

This very solid adjustable extender can be adjusted in length from 165 mm to 235 mm.

0390-0040

Rosette spacer 50 mm.

Necessary for C100 and C500 to be able to attach any rosette style accessory at the right side of the camera.

0390-0060

Rosette attachment for baseplate

Can be attached to the sides of the support type M in order to use any industry standard rosette accessory.

0390-0016

Battery adapter plate for 15 mm rails

For attaching different brands V-lock battery mount plates directly on 15 mm rails. This plate can also hold one weight attachment plate (0370-0200) and other 1/4" accessories.

0370-0105

Universal HD recorder bracket

Can be attached to the rear ends of the 15 mm rails, tiltable and adjustable in height. This bracket is strong enough for the heaviest recorders.

Compatible with the industry standard rosette.

0370-0300

n be found at www.vocas.com.

MBS-100 rail support type M

This 15 mm lightweight rail support has been developed to be compatible with the Canon EOS C100/300/500 camera. It provides excellent protection for the camera and lens and is compatible with many 15 mm accessories such as lens supports or follow focus. This rail support comes standard with a set of 15 mm rails of 400 mm in length.

Also directly compatible with our BP-18 19 mm rail support.
0350-0016

Shoulder support for underneath 15 mm rails

For optimal balance, this shoulder support attaches directly underneath standard 15 mm lightweight rails. This shoulder support features a thick rubber pad which lets even a heavy camera setup rest comfortably on a shoulder. In most cases an external viewfinder or LCD monitor has to be used because the original cameras viewfinder does not align with the operator's eye.

0370-0005

15 mm Shoulder support

A shoulder support that attaches directly to the end of standard 15 mm lightweight rails. This shoulder support features a thick rubber pad which lets even a heavy camera setup rest comfortably on a shoulder. It can be adjusted in angle to accommodate different body types and features attachment points on the back for accessories or counter weights. This shoulder support includes 350 mm long rails, which is sufficient to mount the shoulder support in most setups.

0370-0001

Battery adapter plate

For attaching different brands V-lock battery mount plates directly on the back of the Vocas 15 mm shoulder support (0370-0001) (instead of the counterweights).

0370-0100

15 mm Offset bracket

Specially made for use with the Vocas 15 mm shoulder support (0370-0001) and a midsize video camera. This offset bracket moves the shoulder support more to the right side of the camera so the viewfinder is placed in front of the cameraman's eye. This item comes with two pieces of 15 mm rails of 143 mm in length to allow the shoulder support to move towards or away from the camera.

0350-0021

USBP-15 MKII

This new base plate features everything you need to convert your camera into a shoulder camera, and is compatible with a lot of camera such as the Sony PXW-FS5, Arri Alexa Mini, Canon EOS C100/C300/C500 and the Panasonic Varicam HS/S35.

0350-2200

USBP-19 MKII

Height adjustable 19 mm base plate. Includes:
2 pieces carbon 19 mm rail, 400 mm in length (0480-8400),
a camera adapter plate (0350-2250)
a dovetail shoulder support (0480-0030)
and a short balance dovetail plate (0350-2020)

0350-2205

BP-18 19 mm Balance plate

This balance plate allows the use of 19 mm rails and precise calibration of the cameras centre of gravity on your tripod. Compatible with other industry standard balance plates.

Including two pieces of 19 mm carbon rails, 400 mm in length.

0480-0018

MFC-2S follow focus

Available with the innovative walnut palm support and a walnut focus knob. The technical specifications are among others, a modular design, different gear ratios (ENG, Cinema), reversible rotation direction and is highly adjustable for optimal personal comfort.
