## Base plate MKII for Sony PXW-FS7 / FS7 II

Transforms the camera into a true shoulder camera and make the camera compatible with many other support systems. The base plate MKII can be mounted to the camera after removing the original Sony shoulder pad. Features an adjustable rubber shoulder pad, fixed rosette attachment, VCT-14 adjustment and 15 mm rails in the front and back.

**0350-1700**

## USBP-15 MKII for Sony PXW-FS7 / FS7 II

This new base plate features everything you need to convert your camera into a shoulder camera. When mounting the camera plate to the camera the original Sony shoulder pad has to be removed. With the dedicated base plate mounted to the camera it becomes a part of the Vocas Sliding System.

**0350-2207**

Sony PXW-FS7 / FS7 II camera adapter plate for USBP-MKII.

**0350-2255**

## H-cheese plate for top bars Sony PXW-FS7 / FS7 II

This cheese plate is specifically designed for the Sony PXW-FS7 / FS7 II and can be used in combination with the original handgrip of the camera. It provides the user with many accessory attachment points on the top of the camera and also allows the use of top 15 mm rails.

**0350-1367**

## PL support for H-cheese plate Sony PXW-FS7

This PL support can be mounted on the H-cheese plates for the Sony PXW-FS7 / FS7 II (0350-1365 & 0350-1367) and supports the E-mount to PL adapter 0900-0016.

**0900-0027**

## Top handgrip kit for Sony PXW-FS7 / FS7 II

This top handgrip system has the following features:

Adjustable and reversible handgrip position, wooden inlay for extra comfort, multiple cold-shoe attachments, height adjustable 15 mm top rails, cheese plate, detachable 15 mm viewfinder mount, viewfinder mount and cheese plate also separately available.

**0350-1161**
