Index:

Introduction

Thank you for purchasing this ergonomic remote cable for RED cameras (0390-0158).
More than 25 years of experience in camera accessory designs, are part of this cable design and functionality.

We believe that the Vocas products gives you the perfect configuration for your camera. The coiled cable is made to achieve flexible positions.
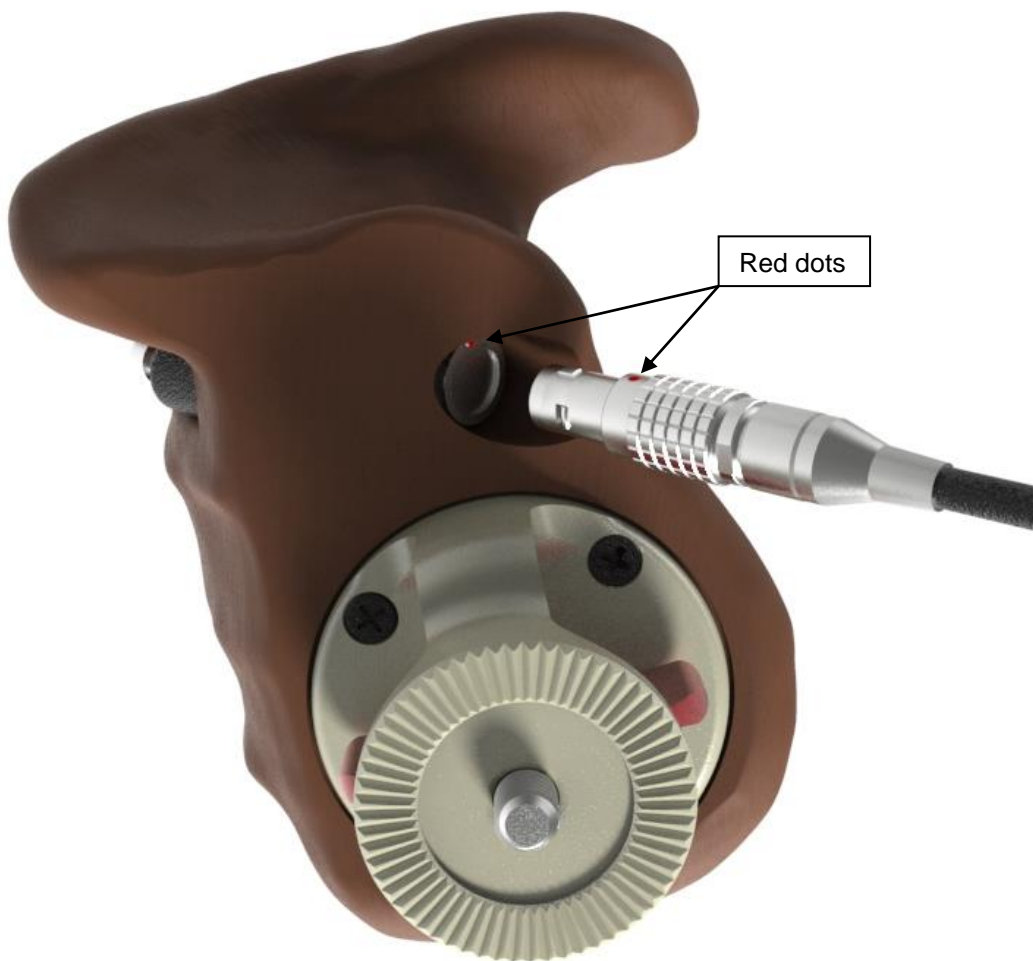

Before you start to use your new accessory, please read these instructions carefully to enjoy optimum performance and a longer service life. Keep this manual in a safe place for future reference.

In the interest of continually improving products, Vocas Systems B.V. reserves the right to update or modify information contained in this manual.

Attaching the cable:

When attaching the remote cable to the handgrip, make sure to align the two red dots (on the M/F connector).
Please note: Trying to force the cable into the connector any other way may damage the connectors.
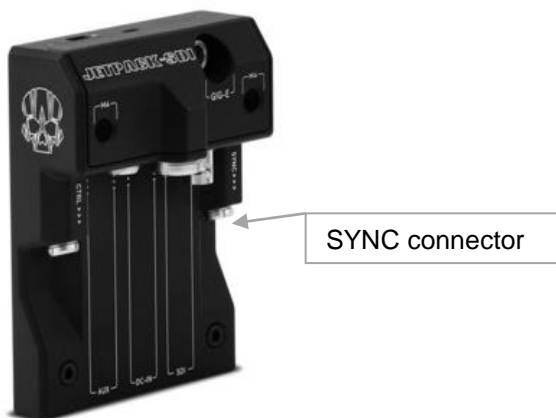

Red dots
